How can they can be improved?

# FUTURE VISIONS ?

**BOW  
D.I.Y.**

But we do know...

UK population will rise to 76 million  
by 2050 (Optimum Population Trust)

23% of the population will be 65+ in  
2035 (17% now)

World energy demand will be 80%  
higher by 2050 (OECD)

# BOW D.I.Y.

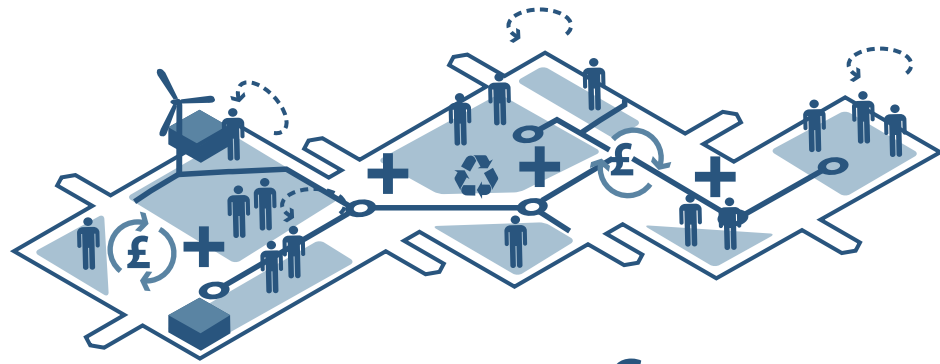

## Where should we go?

Scarcity has provided us with a chance to envision an alternative future of:

- Greater-self sufficiency and therefore resilience
- Knitting together of existing initiatives
- More diverse economic bases
- Greater agency, pride and belonging
- Greater peer-to-peer exchange
- Locally grown solutions and co-investment between local people, businesses and Councils

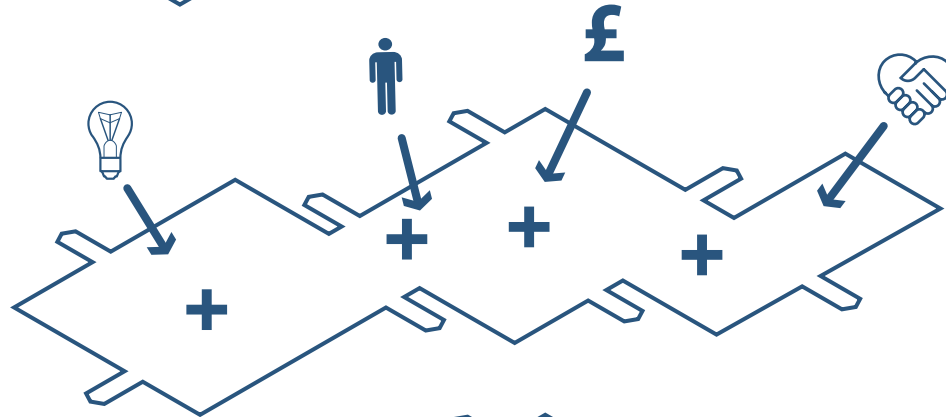

### RESILIENT BBB

More diverse/economic skill base, intra/extra connectivity; higher retention of household income, increased local pride and belonging

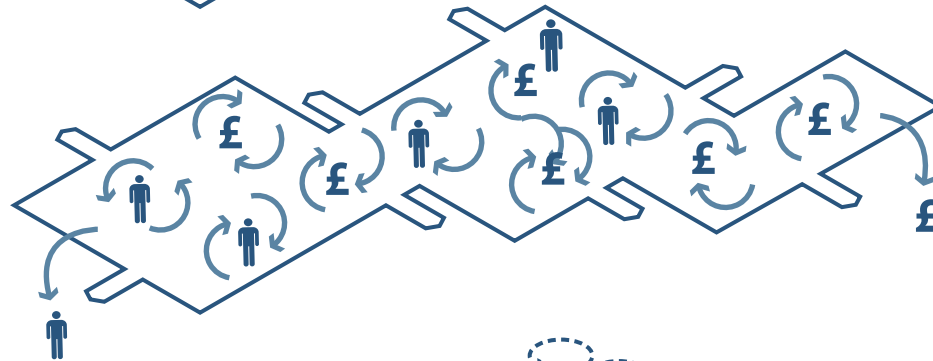

### LOOK OUTSIDE

Places and institutions that attract new (external) resources: ideas, people, money and partnerships more diverse economic bases

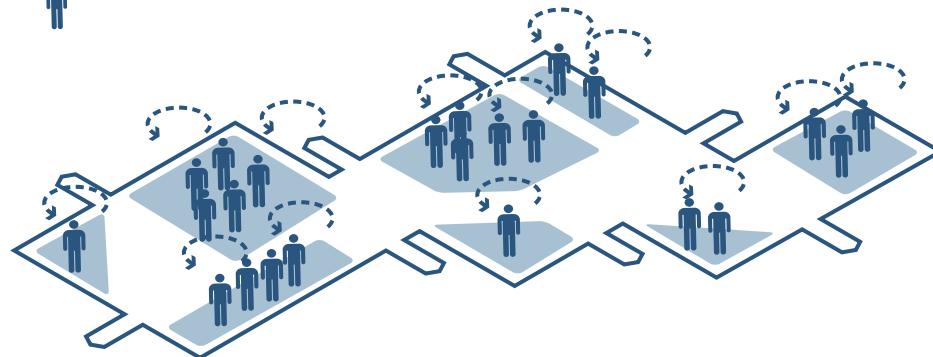

### DIVERSIFY LOCAL NETWORKS

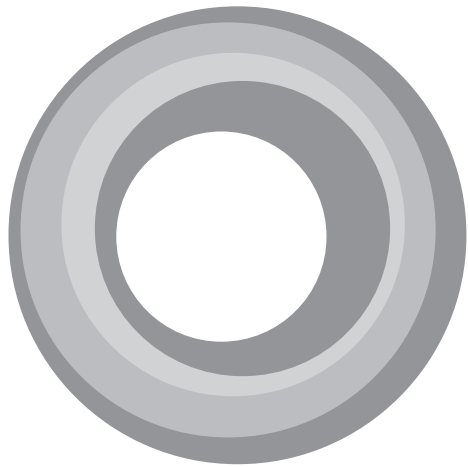

grow skills, employment, businesses in the area; keep currency in local circulation; encourage locally grown solutions and co-investment between local people, businesses and Council

### START WITH WHATS HERE

knit together existing initiatives, build opportunities for conversation, free-peer to peer exchange, barter, assistance
