BOW D.I.Y.

Where are we now?

Our town centres and neighbourhoods are experiencing immediate economic stress:

- Incomes of local residents are under pressure
- Economic inequality is still on the up
- The cost of education is rising
- We're struggling to maintain our common resources the way we have in the past

**BOW
D.I.Y.**

Where should we go?

Scarcity has provided us with a chance to envision an alternative future of:

- Greater-self sufficiency and therefore resilience
- Knitting together of existing initiatives
- More diverse economic bases
- Greater agency, pride and belonging
- Greater peer-to-peer exchange
- Locally grown solutions and co-investment between local people, businesses and Councils
